**Sub: - Stacking of consignment in case of inward rakes at Group-III terminals.****Ref:- Rates Master Circular/Demurrage-Wharfage-Waiver/2016/0.****Authority: - Railway Board letter No. TC-I/2023/201/1(3422245) dated 18.01.2024.****(Corri. No. 46 to Rates Master Circular/Demurrage-Wharfage-Waiver/2016/0)**

रेलवे बोर्ड के प्राधिकृत पत्र द्वारा प्रसारित अनुदेश निम्नानुसार हैं :-

References have been received seeking guidelines for stacking of consignment in case of inward rakes.

In terms of Para 7 of Chapter-II of Rates Master Circular/Demurrage-Wharfage-Waiver/2016/0, guidelines have been laid down for advance stacking at railway premises which are applicable to customers who have indented for wagons.

The matter has been examined. In addition to aforesaid guidelines, it has been decided to prescribe guidelines for stacking of consignment in case of inward rake at Group-III terminals, by inserting an additional Para 8.0 in Chapter-II of Rates Master Circular under reference, as given below-

**“8.0 Stacking of consignment in case of inward rake at Group-III terminals**

- 8.1 Railway may permit stacking of unloaded consignment of an inward rake at nominated Group-III Goods Sheds/CRTs.
- 8.2 Goods Sheds where adequate additional stacking space is available should be identified by the divisions (Sr.DOM or Sr.DCM) in such a way that stacking can be permitted for a prolonged period without hampering the inward/outward traffic of other rakes in the same Goods Sheds. DRM will notify detailed instructions for stacking of inward rakes in accordance with the guidelines prescribed herein. Such instructions should *inter alia* include names of stations/goods sheds/CRTs where stacking will be permitted.
- 8.3 Customer will be allowed to do stacking without levy of any charge upto permitted free time for wharfage (*viz. 72 hours at present*), which is reckoned after expiry of free time for unloading of wagons.
- 8.4 Sr.DCM, in consultation with Sr.DOM, can permit stacking of consignment upto five days (*ie.120 hours*) and DRM can permit upto seven days (*ie. 168 hours*) on joint recommendation of Sr.DCM and Sr. DOM. The upper limit of five days/seven days includes the prescribed free time (*which at present is 72 hours*). Inward stacking permission will be given on levy of “Charge for Stacking” as per the rates given below-

Rate of “Charge for Stacking”	Upto prescribed free time (i.e.72 hours)	Beyond free time (ie. 72 hours) upto 120 hours	Beyond 120 hours upto 168 hours
Goods shed (Group-III)	No charge	25% of normal Wharfage Charge	50% of normal Wharfage Charge
Container Rail Terminal (Group-III)	No charge	25% of normal Ground Usage Charge	50% of normal Ground Usage Charge

*Note: If stacking permission is sought for more than wharfage free time, then Charge for Stacking will be levied for the period excluding wharfage free time (72 hours at present). To say, if stacking permission is sought for 4 days/5 days, then Charge for Stacking will be levied @25% of normal Wharfage Charge for 4<sup>th</sup> day/5<sup>th</sup> day. If stacking permission is sought for 6 days/7 days, then Charge for Stacking will be levied @25% of normal Wharfage Charge for 4<sup>th</sup> day/5<sup>th</sup> day and @50% of normal Wharfage Charge for 6<sup>th</sup> day/7<sup>th</sup> day, as the case may be.*

- 8.5 If a customer has applied for five days or less, then such application will be decided by Sr. DCM and if a customer has applied for more than five days, then such application will be decided by DRM. A permission once granted, for whatsoever period, cannot be extended further.
- 8.6 Permission for stacking may be granted duly keeping in view the traffic pattern, number of rakes handled, availability of space, type of commodity which can be stacked, etc. Such stacking should not lead to hold up of other inward/outward traffic.
- 8.7 Freight customer, desirous of availing the facility of stacking, will have to apply in advance, i.e. before the placement of inward rake, duly furnishing details of inward rake, name of originating & destination stations, number of days for which stacking is sought while giving an undertaking that the stacking will be done at his/her own risk and responsibility. No claims for loss, damage, pilferage or any other reason arising out of stacking will be admissible.
- 8.8 Applications for stacking will be entertained on first come first serve basis. The application for stacking shall be entertained online on FBD portal for registered customer only. Permission for stacking will not be a matter of right and Railway Administration will reserve the right to deny such permission. The permission or denial shall be given in a transparent manner duly recording the reason for such permission/denial along with the name of authority.
- 8.9 Once the permission has been granted by the competent authority then a message will appear on FBD portal that in-principle approval for stacking has been granted and customer shall be asked to make the payment for stacking. "Charge for Stacking" will be deposited by the customer through online mode/e-payment mode only. Stacking can be done only after the payment of "Charge for Stacking" has been realized by the railway administration.
- 8.10 Freight customer will have to remove the consignment from railway premises within the permitted stacking period. Wharfage (*in case of goods traffic*)/Ground Usage Charge (*in case of container traffic*), shall be levied for the excess period beyond permitted stacking period. Further, in case of failure to pay any dues, railway administration reserves the right to exercise lien on the consignment in terms of Section 83 of Railway Act 1989.
- 8.11 Charge for Stacking and Wharfage Charge levied under this scheme will not be refunded or waived except under *force majeure* condition with the personal approval of DRM.
- 8.12 Record of particulars (i.e. name of customer, duration of permitted stacking period, date & time of arrival of inward rake etc.) should be maintained in the system.
- 8.13 These guidelines will be applicable to all types of freight customers including container operators."

These guidelines will be implemented from 1<sup>st</sup> March 2024 on experimental basis for a period of one year. Zonal Railways will furnish feedback/suggestion after six month, duly indicating whether there is any complaint from customer in this regard.

CRIS/FOIS may provide requisite functionality in the system/FBD portal.

**Sub: - Reckoning of free time for removal of consignment – (i) when rake is placed in one spur in multiple placement or (ii) when rake is placed in more than one spur.**

**Ref:- Board's Rates Master Circular/Demurrage-Wharfage-Waiver/2016/0..**

**Authority: - Railway Board letter No. TC-1/2021/201/eFile/2 (3346322) dated 24.01.2024.**

**(Corri. No.47 to Rates Master Circular/Demurrage-Wharfage-Waiver/2016/0)**

रेलवे बोर्ड के प्राधिकृत पत्र द्वारा प्रसारित अनुदेश निम्नानुसार हैं :-

Reference has been received from one of the Zonal Railway seeking guidelines for reckoning of free time for removal of consignment where a rake is placed in more than one spur.

Extant guidelines for reckoning of free time for removal of consignment are prescribed vide Para 3.2 of Chapter-II of the circular under reference, as under-

*"3.2 Free time for removal of consignment from railway's premise will be reckoned after the expiry of the permitted free time for unloading of the rake, irrespective of the fact whether the unloading of rake is done in single placement or multiple placement."*

The matter has been examined. It has been decided to revise the guidelines, as under-

*"3.2 Free time for removal of consignment from railway's premise will be reckoned after the expiry of the permitted free time for loading/unloading of the rake when loading/unloading of rake is done in single placement. However, (i) when rake is placed in one spur in multiple placements or (ii) when a rake is placed in more than one spur, following methodology will be followed-*

(i) when a rake is placed in one spur in multiple placements

*'Free time for removal' will be reckoned after the expiry of prescribed free time for loading/unloading from first placement plus dies non period. Intervening periods of time between completion of loading/unloading of first part and placement of second part, time between completion of loading/unloading of second part and placement of third part and so on, will be treated as dies non. Here, free time for loading/unloading will be taken into account, rake wise/group of wagon wise, as prescribed, irrespective of number of wagons in different placements.*

[refer illustration A]

(ii) when a rake is placed in more than one spur

*'Free time for removal' will be reckoned after the expiry of prescribed free time for loading/unloading from first placement plus dies non period. If the time interval between first placement and subsequent placements (i.e. between first placement & second placement, between first placement & third placement, and so on) is more than two hours, then such time interval of over two hours shall be treated as dies non. Here, free time for loading/unloading will be taken into account, rake wise/group of wagon wise, as prescribed, irrespective of number of wagons in different spurs.*

[refer illustration-B]"

I/74041/2024

It is to emphasize that aforesaid methodology will be applicable for reckoning of free time for removal under Wharfage. However, all other extant guidelines including free time for removal of consignment etc. holds good.

Further, for the purpose of Demurrage, existing methodology for reckoning of free time for loading/unloading of wagons (i) when rake is placed in one spur in multiple placements and (ii) when rake is placed in more than one spur, as per paras 2.2.2 (b) and 2.2.2 (c) of Chapter-I of the circular under reference, will remain unchanged.

These guidelines will be implemented from 15.02.2024.

This issues in consultation with Traffic Transportation Dte and with the concurrence of Finance directorate of Railway Board.

**(Addendum to Rates Master Circular/Provision of Weighbridge/2019/0)**

रेलवे बोर्ड के प्राधिकृत पत्र द्वारा प्रसारित अनुदेश निम्नानुसार हैं :-

Please refer to SCR's letters under reference (iv) regarding acceptance of loading through Silos provided with Static Weighbridge/Preweighbin and weighment thereon, without involving EIMWB.

The matter has been examined and it has been decided to permit acceptance of weight provided by Static Weighbridge attached with silo system, where weighment takes place alongwith the loading process and no additional detention to rake is involved for weighment of wagons. Accordingly, following guidelines are prescribed by inserting an additional Para 6.0 in Rates Master Circular/Provision of Weighbridge/2019/0.

- 6.0 Acceptance of weight provided by Static Weighbridge for Proof of Concept (POC) on South Central Railway:**
- 6.1 Silo system, provided with Static Weighbridge, is used for loading of loose/bulk commodities. These guidelines will be applicable in case of private sidings with the investment toward Silo being made by the private party.
- 6.2 The weighment details provided by Static Weighbridge will be taken into account.
- 6.3 Extant guidelines for preparation of Railway Receipt by charging freight as per Permissible Carrying Capacity (PCC) of the wagon and reckoning of overloading based on designed tare weight will be applicable for this system. Empty tare weight of the wagon will not be captured. For the purpose of overloading, the gross weight will be reckoned on the basis of weight provided by Static Weighbridge.
- 6.4 The weighment provided by Static Weighbridge will obviate the requirement of weighing wagon/rake on EIMWB in normal circumstances.
- 6.5 Railway can permit aforesaid system of weighment, in lieu of EIMWB, on case-to-case basis on joint recommendation of Sr. DCM, Sr.DOM, Sr.DME and with the personal approval of DRM while keeping into account the following conditions.
- Static Weighbridge should comply with all requisite specifications/criterion prescribed by concerned State Government authority (e.g. Legal Metrological, Weights & Measures departments etc.) regarding certification, calibration, accuracy class, dimension and other physical (hardware & software) aspects as prescribed from time to time.
  - The system should have interface with FOIS.

- Adherence to general guidelines issued from time to time, related to tamper proofing, provision of CCTV, joint inspection, etc.
- A JPO should be issued by the Division duly prescribing protocols of placement & procedure of measurement as issued by Legal Metrology Department and Weight & Measures Department.
- Any other condition/requirement may be prescribed by Division as per field experience.

6.5 All other extant instructions related to PCC, weighment, overloading etc. will continue to apply unchanged.

These guidelines will be implemented on pilot basis for a period of six months over SCR with effect from 01.04.2024.

Zonal Railway, on the basis of a time and motion study or otherwise, should submit an Appreciation Report mentioning the net time gained by introduction of this system in comparison to the earlier system of mandatory weighment on EIMWB. Zonal Railway will also furnish details of problem/issue and customer's concern, if any.

This issues in consultation with Traffic Transportation & Mechanical directorates and with the concurrence of Finance directorate of Ministry of Railways.

( Addendum to Rates Circular No. 01 of 2019 )**

रेलवे बोर्ड के प्राधिकृत पत्र द्वारा प्रसारित अनुदेश निम्नानुसार हैं :-

Reference has been received from one of the Zonal Railway stating that after load adjustment, actual weight of commodity is not being reflected in Railway Receipt (RR).

The Joint Procedure Order (JPO) for detailing movement of loaded rakes on different routes are prescribed vide Board's letter under reference (iii) which stipulates the condition for movement of rakes on normal speed, restricted speed and for load adjustment. (copy enclosed)

The procedure to capture weighment details in TMS/FOIS and modification thereof after load adjustment of overloaded wagon are laid down vide Rates Circular No.1 of 2019. However, in the guidelines, there is no mention about the maximum net weight of consignment in a wagon after load adjustment.

The matter has been examined and it has been decided to prescribe guidelines with regard to maximum net weight of consignment in a wagon after load adjustment, by inserting additional sub-para below Para 2(ii) in Rates Circular No.1 of 2019 -

“2(ii) (a) After load adjustment of overloaded wagon, the task in TMS will allow wagon wise adjustment of the weight of consignment. Maximum net weight of consignment in a wagon will be the prescribed 'Permissible Carrying Capacity (PCC) plus Loading Tolerance' of such wagon. Freight will be charged for the net weight 'PCC plus Loading Tolerance', even if net weight of consignment after load adjustment is less than PCC of the wagon.”

**ILLUSTRATION-**

1. Say for BOXN : Designed Tare Weight - 22.48T ; PCC – 68.1T (on CC+8) ; Loading Tolerance - 01T , then maximum net weight permitted = 68.1+01=69.1T

Net Weight after load adjustment as per Load Adjustment Memo	(current practice)	(Revised Guidelines) Weight for which Freight to be charged
68.1T or less	68.1T	69.1T
68.5T	68.5T	69.1T
69.1T	69.1T	69.1T

2. Say for BOST : Designed Tare Weight – 25.5T ; PCC – 65.1T(on CC+8); Loading Tolerance - 01T , then maximum net weight permitted = 65.1+01 = 66.1T

Net Weight after load adjustment as per Load Adjustment Memo	(current practice)	(Revised Guidelines) Weight for which Freight to be charged
65.1T or less	65.1T	66.1T
65.5T	65.5T	66.1T
66.1 T	66.1 T	66.1T

CRIS/FOIS will make requisite provision in the system.

These guidelines will be effective from 10.04.2024.

This issues in consultation with Traffic Transportation Dte and with the concurrence of Finance Dte of Railway Board.

covered wagon, both the types should be shown in the Wagon Demand/Priority Register and whichever type is available first will be supplied.

- (8) Railways may restrict from time to time the type of wagon (covered or open) that will be supplied in respect of specified commodities. Railways do not guarantee to supply at stations wagons of any particular type or carrying capacity.
- (9) The Wagon Demand/Priority Register should be open for inspection by merchants and traders during the hours of working of goods sheds and stations.
- (10) **Allotment/loading orders** – Each item of wagon registration is given a serial number in the order of registration. Allotment/Loading orders are issued in accordance with the priority of registration and also having regard to preferential schedules prescribed by the Railway Board, quotas and restrictions in force and other operating considerations.
- (11) Stations should load wagons only in accordance with Allotment / Loading orders received from the appropriate authority, except at stations where Station Masters are authorized to allot wagons themselves in accordance with the instructions issued in this regard.
- (12) The Allotment/Loading orders should be exhibited on the Notice Board of the station for the information of the public.
- (13) **Change of commodity** – Change of Commodity in a registration already made will be permitted freely at private sidings as long as it is in the same priority group. At all other terminals, change of commodity will not be permitted in a registration already made. However, change of commodity in upto 20% of the wagons indented may be permitted where multiple commodities have been indented within a rake. Divisional Officers (Sr. DCM/DCM) are authorized to permit above mentioned change in commodity. These guidelines will not be applicable in case of goods traffic pertaining to Bangladesh.  
(Corrigendum to Rates Circular No.13 of 2022)
- (14) **Receipt of wagon registration fee collected** - A separate receipt shall be given to the indenter for the registration fee paid for each wagon. The receipt foil will consist of two portions. The upper portion will be retained by the indenter and the lower portion will be returned to the Station Master duly signed by the receiver when the registration fee is refunded.
- (15) **Forfeiture of Wagon Registration Fee** – Registration fee will be forfeited under any of the following circumstances-
  - (a) When the wagon indent is cancelled after physical supply of the wagon. However, in case of Iron Ore Wagon Registration Fee will be forfeited if indent is cancelled after allotment of rake in Rake Allotment System(RAS).  
(Rates Circular No.25 of 2020)
  - (b) When the consignor does not agree to pay the charges as per tariff rules.
  - (c) When a wagon indent is cancelled by the indenter within 10 days from the date of registration, irrespective of the commodity. Further, in case advance stacking permission has been granted, cancellation of indents will not be permissible upto fifteen days from the time of advance stacking permission granted by the Railway Authority. In case Rail User cancels the indent within the aforesaid period, Wagon Registration Fee will be forfeited.  
(Corrigendum 29 to Rates Master Circular/Demurrage-Wharfage-Waiver/2016/0)

Note(1):-

When restriction is imposed without any time-limit the consignor shall be allowed either to retain his indent or to cancel it before removal of the restriction without forfeiture of the wagon registration fee.

Note(2):-

(i) However, cancellation of indents will be dealt with differently when Railway Board issues notice to withdraw transportation of particular business segment, or a particular stream of traffic or even a specific commodity for any of the following reasons:

- I. Disruption of a particular section due to Force Majeure conditions.
- II. Closure of the section after due notification.
- III. Closure of the originating goods shed after due notification.
- IV. Closure of the destination goods shed after due notification.
- V. Phasing out or withdrawal of a particular type of rolling stock altogether for which indent has been placed.

(ii) In case where the originating station is affected, no change of indent will be permitted.

(iii) In all the above cases where destination station is affected except (III), the consignor may be allowed to change the destination station of the indent to any other destination within zonal Railways of initial destination station.

(iv) In case of phasing out or withdrawal of a particular type of rolling stock, the consignor may also be allowed to change the indent to another type of stock.

(v) The above change may be permitted by the booking station only after the receipt of the confirmation from the Zonal Railway of the destination station.

(vi) Not more than one such change may be permitted.

(vii) If the consignor does not opt for change up to 30 days from the date of issuance of such notice, the indent shall be treated as cancelled on 31<sup>st</sup> day and the registration fee shall be refunded.

*(Rates Circular No.66 of 2009 and its corrigendum dt.30.06.2010)*

- (d) When a wagon is supplied to an indenter but he does not commence loading it before the expiry of the free time allowed for loading.
- (e) When a wagon is supplied to an indenter and the wagon is detained at his request for loading beyond the free time after which he cancels his indent.

**Note:-**

(1) Whenever the registration is forfeited, the corresponding indent will also be treated as cancelled.

(2)(i) When a wagon is supplied to an indenter which he commences loading within the free time but takes more than the free time permitted the wagon registration fee will not be forfeited but Demurrage will be recovered in accordance with the rule.

(ii) When a rake is supplied to an indenter at congested goods shed, and he commences loading within the free time but does not complete the loading within twice the permissible free time, one subsequent pending indent of the said consignor will be cancelled along with forfeiture of wagon registration fee. Similarly, if he does not complete the loading within three times the permissible free time, another pending indent will be cancelled along with forfeiture of wagon registration fee, and so on. Congested goods shed will be notified by the Zonal Railway with the personal approval of General Manager.

**Illustration:** A BOXN rake is placed for loading at goods shed (Round the clock working) and free time for mechanized loading is 5 hours.

Time of placement of rake	06:00 hours
Time at which loading started	07:00 hours
Time of completion of loading	Action to be taken
Case-(i) 12:00 hours of the same day	Demurrage is leviable on excess detention. Neither indent will be cancelled nor will Wagon Registration Fee be forfeited.

Case-(ii) 16:15 hours of the same day	Demurrage is leviable on excess detention. Cancellation of one pending indent and forfeiture of Wagon Registration Fee.
Case-(iii) 22:00 hours of same day	Demurrage is leviable on excess detention. Cancellation of second pending indent and forfeiture of Wagon Registration Fee

(Rates Circular No.12 of 2011)

In case of congested goods shed having working hours 06.00-22.00 hrs, if free time expires at or before 22.00 hrs, the time between 22.00 hrs to 06.00 hrs is to be taken into consideration while reckoning total time taken by indenter/consignor for loading, for the purpose of forfeiture of Wagon Registration Fee and cancellation of indent.

(Board's letter No. TC-I/2011/305/1 dt.09.01.2015)

(3) If a consignor refuses to load an open wagon/covered wagon which is supplied against an indent for a covered / open wagon respectively, the registration fee will not be forfeited. But his indent and priority for the type of wagon for which he has originally indented shall be cancelled because of such a refusal.

(4) The forfeiture of the registration fee does not preclude the levy of demurrage charges under normal rules.

(5) The Zonal Railway Administration may legislate the condition under which permission for detention of wagons under clause (e) can be given, including laying a condition for advance payment of Demurrage charges for the periods for which detention of the wagons is sought.

(f) When misdeclaration is reported between Letter of Credit(LC) details entered in eRD and the physical copy thereof submitted to the goods clerk, in case of goods traffic pertaining to Bangladesh.

(Addendum 3 to Rates Master Circular/eRD/2019/0)

#### (16) Refund of Registration Fee –

In the latter case, the claimant should apply to the Chief Commercial Manager of the Railway concerned for refund.

(b) In the case of 'paid' consignments, the wagon registration fee will be adjusted against the freight charges to be recovered.

(c) Time limit for preferring claims for the refund of Wagon Demand Registration Fee is three years from the date of its payment or from the date of last debit in case of lump sum deposit.

(Board's letter No.99/TC-I/101/2 dt.22.12.2014)
